CYBERCIG®
THE BETTER WAY TO SMOKE

CE7 Tank User Guide

Mouthpiece

Mouthpiece seal

Note: **DO NOT** overtighten the mouthpiece as this could burst the thread & seal ring. The tank warranty is void if the mouthpiece seal & thread has burst due to over tightening.

The tank is a sealed unit.

Screw the tank into the top of the boss ring 'second'.

Tapered stainless steel boss ring.

The tank fits to a 650 or a 1100 battery.

Ensure that this seal is in place & intact, otherwise the tank will leak from this location.

Fill with liquid, **DO NOT** pour liquid down the centre of the tube. For easier filling please use the needle bottle.

Never fill the tank past this mark.

Tank scale

Atomizer

Screw the boss ring into the top of the battery first.

Ensure that the boss ring is fully screwed down into the top of the battery.

Spare & replacement tanks can be purchased from our website:
